Summary

Junior Full Stack Developer with expertise in Laravel, React, and API integration at Analects. Proven ability to deliver innovative web solutions that enhance user experience. Strong problem problem-solving and a collaborative approach contribute to successful project outcomes.

Skills

Programming Languages: Java, C++, JavaScript, SQL, Python
Frontend Development: HTML, CSS, Bootstrap, React.js, JQuery, Wordpress
Backend Development: CodeIgniter, Laravel, RESTful APIs
Databases: MySQL, Firebase
Developer Tools: Git, GitHub, VS Code, Sublime

Projects

E-Book – Digital Reading Platform App ***| XML, Java, Android, Firebase***

- Create layouts using XML (e.g., activity_main.xml, book_item.xml).
- Use components like RecyclerView for book lists, WebView or TextView for displaying book content.
- Load and display book content (PDF, ePub, or plain text).
- Handle user interactions like opening a book, bookmarking pages, and searching..

Clothing – Ecomerce Website for Cloths ***| Html, CSS, Codeigniter***

- Design attractive product pages, filters (by size, price, brand), and cart functionality using HTML, CSS, and JavaScript. Ensure mobile-friendly responsive design for better user experience.
- Use a backend language PHP CodeIgniter, with a database MySQL to manage products, categories, users, and orders. Implement a shopping cart, wishlist, and checkout system.
- Add secure user login/register system using sessions or JWT. Integrate payment gateways like Stripe, PayPal, or Razorpay for secure transactions.

Training & Certifications

- **Android App Development, Intershala Training, Virtual, 07/01/22, 09/30/22:** Successfully completed at 8 weeks online certified training on Android App Development. The training consisted of Introduction to Android, World of Kotlin, Android Kick-off, Higher Order Functionalities, and The Final Project modules, In the final assessment, I scored 63% marks.
- **Data Science, Internshala Training, Virtual, 012/01/22, 01/31/23:** Successfully completed 6 weeks online certified training on Data Science. The training consisted Introduction in Data Science, Python for Data Science, Understanding the statistics for Data Science, Predictive Modeling and Basis of Machine Learning.
- **Programming With Python, Internshala Training, Virtual, 09/01/23, 01/31/24:** Successfully completed 6 weeks online certified training on Programming With Python. The training consisted of Introduction to Python, Using Variable in Python, Basics of Programming in Python, Principles of Object-oriented Programming (OOP), Connecting to SQLite Database, Developing a GUI with PyQt, Application of Python in Various Disciplines, and The Final Project modules. I scored 100% in the final assessment and was a top performer in the training.
- **Web Development, Internship Training, Virtual, 03/01/2024, 04/30/25:** Successfully completed 8 weeks online certified training on Web Development. The training Consisted of HTML, CSS, Bootstrap, DBMS, PHP, JS, React, and Final Project modules. In the final assessment. I scored 81% marks.
- **Machine Learning, Internship Training, Virtual, 03/01/2024, 04/30/25:** Successfully completed 6 weeks online certified training on Machine Learning. The training consisted of Introduction to Machine Learning, Data, Introduction to Python, Data Exploration and Pre-processing, Linear Regression, Introduction to Dimensionality Reduction, Logistic Regression, Decision Tree, Ensemble Models and Clustering (Unsupervised Learning) modules. I scored 100% in final assessment and was a top performer in the training.

Education

Masters in Computer Applications **Graduated: 2023**
Amity University, Hariyana *CGPA: 7.2 / 10*

Experience

Backend Developer at Analects Technology *Duration: 1 year*

Experience: During my tenure at Analects Technology, I gained extensive experience in developing scalable and efficient backend solutions using Laravel. I worked on various projects that required integrating complex functionalities and ensuring seamless performance. My role involved close collaboration with cross-functional teams, which enhanced my ability to communicate technical concepts effectively. Additionally, I honed my skills in problem-solving and debugging, contributing to the overall success of the projects I was involved in

Responsibilities:

- Developed and maintained web applications using Laravel framework.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Implemented RESTful APIs to enhance application functionality.
- Ensured the performance, quality, and responsiveness of applications.
- Troubleshot and debugged issues to optimize application performance.
- Participated in code reviews and provided constructive feedback to team members.
